

# Golgotha

## Advent

Golgotha, rise up from your tomb  
Devil's had a taste of holy water  
Lost children need your guiding hand  
Take them through the fire of the promised land  
Now we come together  
We're all waiting for a sign  
If it takes forever  
We believe in the divine  
Grand Canyon source of all our dreams  
Protected from a billion years of evil  
Golden fire thunder all around  
Covenants will cover up you sinners  
Now we come together  
We're all waiting for a sign  
If it takes forever  
We believe in the divine  
Overcoming tyranny to desecrate the entity  
Satanical  
Laying waste this sick disease  
That crippled maimed feel to our knees  
Like Jericho  
Pile of skulls crunched under foot  
Torched remains are crying out  
Satanical  
Rising up to purge and scourge  
The killing of our paradise  
Like Jericho  
Salvation  
Salvation  
Now we come together  
We're all waiting for a sign  
If it takes forever  
We believe in the divine
