

Dead

Frida Sundemo

Don't let it be the last time you hold me
Don't let me cross the border out of your land
Don't let it be the last time your lip gently touches mine
Don't let it be the last time you hold me
Don't let it be the last time I see you when I close my eyes
Don't let it be the last time you hold me I would die for you
I would follow through
Rip my heart in two
I would die for you
Don't let it be the last time you hold me
Don't let me cross the border out of your land
Don't let it be the last time your lip gently touches mine
Don't let it be the last time you hold me I would die for you
I would follow through
Rip my heart in two
I would die for you
I would die for you
I would follow through
Rip my heart in two
I would die for you
