

# That Man Jumped Out the Window

## Cloud Cult

It's the thoughts that you feed  
It's the habits you need  
It's the things that you don't think that you're seeing  
When you're really seeing  
That man jumped out the window  
Come back in the window  
That man jumped out the window  
Come back in the window  
It's your tone in my mouth  
It's the things that we're too scared to talk about  
It's the feeling that you're dreaming  
(You're not really dreaming)  
That man jumped out the window  
Come back in the window  
That man jumped out the window  
Come back in the window  
It's the feeling that you're falling  
But there's a fine line between falling and flying  
It's the feeling that you've lost it  
What don't you get?  
What don't you get?  
(x2)  
It's the thoughts that you feed  
It's the habits you need  
It's the things that you don't think that you're seeing  
When you're really seeing  
That man jumped out the window  
Come back in the window  
That man jumped out the window  
Come back in the window
