

Work.

Jimmy Eat World

If you only once would let me
Only just one time
Then be happy with the consequence
With whatever's gonna happen tonight
Don't think we're not serious
When its ever not
The love we make is give and it's take
I'm game to play along All I can say
I shouldn't say
Can we take a ride?
Get out of this place
While we still have time Oh oh, oh oh, oh oh oh
(Oh oh, oh oh, oh oh oh)
All the best DJs are saving
The slowest song for last
When the dance is through
It's me and you
Come on, would it really be so bad?
The things we think might be the same
But I won't fight for more
(I won't fight for more)
It's just not me to wear it on my sleeve
Count on that for sure All I can say
I shouldn't say
Can we take a ride?
Get out of this place
While we still have time
You wanna take a ride?
Get out of this place
While we still have time
Yeah, we still have time Oh oh oh oh
Oh oh oh oh
Oh oh oh oh
Oh oh oh oh Can't say I was never wrong
But some blame rests on you
Work and play they're never okay
To mix the way we do All I can say
I shouldn't say
Can we take a ride?

Get out of this place
While we still have time
You wanna take a ride?
Get out of this place
While we still have time
We still have time Oh oh oh oh
Oh oh oh oh
