

The Crows Are Coming for Us

From First to Last

How does it feel to be ashamed of who you love?
Oh, I know, you wore me out so proudly
Hidden in the glitter is the real thing, real
Always knew
What you were
Always knew
You walk on water, you sing a lovely tune
You walk on water, you sing a lovely tune
You walk on water, you sing a lovely tune
You walk on water, you sing, sing
Always knew
What you were
Always knew
The crows are coming for us
Let them live, let them live
The crows are coming for us
Let them live, let them live
The crows are coming for us
Let them live, let them live
The crows are coming for us
Let them live, let them live
The crows are coming for us
Let them live, let them live
The crows are hungry for us
Let them live, let them live
The crows are hungry for us
Let them live, let them live
The crows are hungry for us
Let them live, let them live
Always knew
What you were
Always knew
What you were
(The crows are coming for us)
Always knew
(The crows are hungry for us)
What you were
(The crows are coming for us)
