Advisory - the following lyrics contain explicit language:

Speak before it goes away  
I can't go another day  
I know what she's gonna say  
Just to make me go away  
This is how it's gonna be

I'm not who I'm meant to beDrinks and drinks and drinks and drinks  
Then I gotta hold her headSho-be-do-be-do-be-do (x4)Feds are closing in on me  
Everybody knows it's me  
What else can I do but hideAsking me to settle down  
Wanting me to solve it now  
I hope you know it's all a lie
