Who'd take my hand  
Who'd take my hand  
I wanna show you  
Something that you never seen Why don't you come  
Look at me so  
He breaks my hand  
So many times Never felt, never felt  
Never felt, love  
Never felt, never felt  
That love could hurt so much  
That love could hurt so much I can't believe that I'm seeing this love  
I can't believe that I'm seeing this love  
I can't believe that I'm seeing this love Still hold her close  
Her close Wake up now, wake up now, wake up now  
Wake up now, wake up now, Who'd take my hand  
Who'd take my hand  
I wanna show you  
Something that you never seen Never felt, never felt  
Never felt, love  
Never felt, never felt  
That love could hurt so much  
That love could hurt so much I can't believe that I'm seeing this love  
I can't believe that I'm seeing this love  
I can't believe that I'm seeing this love I can't believe that I'm seeing this love  
I can't believe that I'm seeing this love  
I can't believe that I'm seeing this love
