Standing Tall

J.D. Overdrive

I am stronger than I was back,
When you took me on,
I know just where I stand.
I've been searching for a sign,
To tell me that its time
And now I understand.
Everything falls in to place
These will be my shiny days
Just as I was hoping, Just as I was hoping.
I'm still standing tall, I will not fall
Back against the wall
I will survive it on my own
I'm still standing tall, won't ever fall
Live through it all, I'll be standing.
If I had another day, before I go away,
I'd spend it here with you
I hear some thing out there some where
To tell me where to come where every dream is true.
Everything falls in to place
These will be my shiny days
I can here it coming, I can here it coming.
I'm still standing tall, I will not fall
Back against the wall
I will survive it on my own
I'm still standing tall, won't ever fall
Live through it all, I'll be standing.

I can see everything so clearly
This is what I had planned
(This is what I had planned)
Self control that I love so dearly
Is telling me just where I stand
(I'll be standing tall.)
I'm still standing tall, I will not fall
(I will not fall)
Back against the wall
(Against the wall)
I will survive it on my own
I'm still standing tall, (standing)

won't ever fall (I will not fall)
Live through it all, I'll be standing.
(I'll be standing tall.)
I'm still standing tall, I will not fall
(I will not fall)
Back against the wall
(Against the wall)
I will survive it on my own
(I'm still standing tall)
I'm still standing tall,
Won't ever fall
(Won't not fall)
Live through it all, I'll be standing.
I'm still standing tall.
