

Up Against the Wall

*NSYNC

You know we don't care at all
Let, let me see you, up, up against the wall I was just doing my thing hanging out at the spot
You know the place we go the music's John Blaze hot
And everybody was feelin' the DJ
The smoke cleared and I saw this beautiful lady The lights went low and the disco ball came down
She walked up to me slow and you know what happens now
The girl was fine and she knew she had game
What more do I have to say? She took my hand, we never said a word at all
We started grinding, shorty had me up against the wall
Ask me about tomorrow, you know that I don't care at all
I just got caught up and she had me up against the wall You know we don't care at all
You just get caught up when your up against the wall
We don't, we don't care at all
You know we don't care at all
Let, let me see you, up, up against the wall It's almost two o'clock, it's time to make my move
The after hour spot is where I'm going to
'Cause I've gotta have some more
I'm lookin' for somebody to hit the dance floor
And lucky for me, I see a fine young lady's eying me The lights are low and her friends were all around
I walked up to her slow and you know what happens now
She turned around and she worked in the worst way
What more do I have to say? She took my hand, we never said a word at all
We started grinding, shorty had me up against the wall
Ask me about tomorrow, you know that I don't care at all
I just got caught up and she had me up against the wall
Shorty had me up against the wall Mirror, mirror on the wall, whose the cutest one you saw
She's underneath the disco ball, the disco ball, the disco ball
Standing next to strobe lights dancin' hot, lookin' tight
The freaks sure do come out at night, out at night, night
What more do I have to say? She took my hand, we never said a word at all
We started grinding, shorty had me up against the wall
Ask me about tomorrow, you know that I don't care at all
I just got caught up and she had me up against the wall She took my hand, we never said a word at all
We started grinding, shorty had me up against the wall
Ask me about tomorrow, you know that I don't care at all
I just got caught up and she had me up against the wall
I just got caught up and you had me up against the wall We don't, we don't care at all
You know we don't care at all
Just get caught up when you're up against the wall

We don't, we don't care at all
You know we don't care at all
Let, let me see you up, up against the wall We don't, we don't care at all
You know we don't care at all
Just get caught up when you're up against the wall
We don't, we don't care at all
You know we don't care at all
Let, let me see you up, up against the wall
