Back In Time

Rage

What's this scenery? I can see it clearly
I'm the visionary, it's the moment of my birthThe intention's here, this was how I planned to be
But reality shows the weaker part of meI wish that I could turn back timeJourney far beyond my memory
Driven back in time
Travel to my secret history
Driven back in timeDriven back in time
Driven back in timeThrough the centuries, tried to get experienced
Now I have to see, wisdom starts where knowledge endsOnce again I've failed, I didn't use my precious time
To fulfill my part to remember me that I'mLiked into the global visionJourney far beyond my memory
Driven back in time
Travel to my secret history
Driven back in timeDriven back in time
Driven back in timeJourney far beyond my memory
Driven back in time
Travel to my secret history
Driven back in timeDriven back in time
Driven back in time
