

# Bones

## El Huervo

I don't want to be crippled cracked  
Shoulders, wrists, knees and back  
Ground to dust and ash  
Crawling on all fours

When you've got to feel it in your bones  
When you've got to feel it in your bones

Now I can't climb the stairs  
Pieces missing everywhere  
Prozac painkillers

When you've got to feel it in your bones  
When you've got to feel it in your bones  
And I used to fly like peter pan  
All the children flew when I touched their hands

When you've got to feel it in your bones  
When you've got to feel it in your bones
