

Long Way Down

Haste the Day

Oh, here you are, theres nothing left to say
You're not supposed to be that way
Did they push you out?
Did they throw you away? Touch me now and I dont care
When you take me Im not there
Almost human but Ill never be the same Long way down and I dont think Ill make it on my own
Long way down and I dont want to live in here alone
Long way down and I dont think Ill make it on my own I never put you down, I never pushed you away
You're not supposed to be that way
Take anything you want, theres nothing I could say Is there anything to feel?
Is it pain that makes you real?
Cut me up before it kills me Long way down and I dont think Ill make it on my own
Long way down and I dont want to live in here alone
Long way down and I dont think Ill make it on my own I never put you down, I never pushed you away
Take another piece of me
Give my mind a new disease
And the black and white world never fades to gray Long way down and I dont think Ill make it on my own
Long way down and I dont want to live in here alone
Long way down and I dont think Ill make it on my own
On my own, on my own
