

I Don't Want to Fall

Juris

I know that I'm no longer considered young
But with this feeling it's like teenage just began
I've gone through tough times
And I can say that I have grown
So I should be able to control what's going on
But no, this was not my intention
Oh no, just erase this connection cause I...
I don't want to fall for you
I'm scared that you just might fall for me too
I don't want to feel for you
I'm scared that you just might feel for me too
Feel for me too... oooooh
You try too hard to hide the spark in your eyes
And I ignore it even if it excites me deep inside
'Cause I'm strong and I know it's wrong
And to each other we simply don't belong
So I should be able to control what's going on
But no, this was not my intention, oh no
Oh no, let's just erase this connection cause I...
I don't want to fall for you
I'm scared that you just might fall for me too
I don't want to feel for you
I'm scared that you just might feel for me too
I don't want to fall, fall for you
I'm scared that you just might fall for me too
And I don't want to feel for you
I'm scared that you just might feel for me too
Feel for me too... oooooh
Ooooooh, this is dangerous
Let's not be adventurous
This could change our lives for the better
But what if for the worse?
I don't want to fall for you
