Feel the Rush

Satyrian

Oh yeah
Ooh yeah
Come on
Oh yeah
Your eyes have let me know, telling me that I move you so
And you can't hide what your feeling
So drop your thin disguise, baby, you gotta realize
It's time that you start believing
So don't pretend there's nothing going on
You got to give it up tonight
Tell me I got you hypnotized
Tell me that we are synchronized
And you can't get enough
Tell me you feel the rush
Tell me you feel the energy
You and I got this chemistry
You can't get enough
Tell me you feel the rush
Why must you always be playing those little games with me?
We both know I don't deserve it
We both made the same mistake, thinking of you without the take
Baby, now the table is turning
Now it's time to stop playing with my heart
You got to give it up tonight
Tell me I got you hypnotized
Tell me that we are synchronized
And you can't get enough
Tell me you feel the rush
Tell me you feel the energy

You and I got this chemistry
You can't get enough
Tell me you feel the rush
Tell me I got, tell me I got you hypnotized
Tell me that we, tell me that we are synchronized
Tell me I got, tell me I got you hypnotized
Tell me that we, tell me that we are synchronized
So don't pretend there's nothing going on
You got to give it up tonight

Tell me I got you hypnotized
Tell me you feel the energy
Tell me you feel the rush
Tell me I got you hypnotized
Tell me that we are synchronized
And you can't get enough
Tell me you feel the rush
Tell me you feel the energy
You and I got this chemistry
You can't get enough
Tell me you feel the rush
Tell me I got you hypnotized
Tell me that we are synchronized
And you can't get enough
Tell me you feel the rush
Tell me you feel the energy
You and I got this chemistry
You can't get enough
Tell me you feel the rush
