Tonight

Milk Inc.

I never knew
I could miss you so
Holding on to a dream
Never letting go

I never thought
Though it's been a year
You'd be here

Tonight, tonight
When we're together baby
Tonight, tonight
Will last forever baby
Tonight, tonight
We will feel alive

Tonight, this is where I wanna be
Holding you so close to me
Holding you forever

Tonight, this is what I wanna say
Everything's gonna be OK
Holding you forever

I never knew
I could miss you so
Holding on to a dream
Never letting go

I never thought
Though it's been a year
You'd be here

Tonight, this is where I wanna be
Holding you so close to me

Holding you forever

Tonight, this is what I wanna say
Everything's gonna be OK

Holding you forever

Tonight, tonight
Tonight, tonight
Tonight, tonight
When we're together baby
Tonight, tonight
Will last forever baby
Tonight, tonight
when we're together baby
Tonight, tonight
Will last forever baby
Tonight, tonight
When we're together baby
Tonight, tonight
Will last forever baby
Tonight, tonight
We will feel alive

Tonight, this is where I wanna be
Holding you so close to me
Holding you forever

Tonight, this is what I wanna say
Everything's gonna be OK
Holding you forever
