Whisper Come Talking

VGATE

march down the river see the wooden saint
aint got no sally she gone this way
i asked for water mama said why now
she said the river caught her in the morning(whisper) trick go see what she done on
she gonna sigh drink old white wine
she's on she talked the river
what she sick and tired of
she gonna see that the power is done
(end whisper)i told john at the red house tonight
you got the line in the sign of night
and i know sally wasn't or (on the run)
for a time aint got gotta be
if she's gonna run been gone this where
she gonna be down within the morn
and with them to see
and the wicked time
and the wicked ways
she can go ride
she gon go ride
she gon go ride
with the junk
she wants to ride she talks bright
whisper whisper come talking
whisper whisper come talking
wake up in the morning
like stone.
