Never Good Enough

Strung Out

She's a big girl
and she knows just what she wants
She's gonna get her shit together,
gonna get out of Hollywood
Daddy's little angel
won't be commin' Home tonight.
When your nowhere to be found
I'll know you've givin up the fight
She can't hold her own
she says she's gotta run away from here
The city's gotten the best of her
just one too many times.
When everything's been said and done
and the dust has finally cleared
I'll be your fool just one more time
I'll be waitin' by the phone.
Cause I don't know,
and I don't care,
I'll do anything you want,
Never good enough for you.
Well she don't need nobody anyway,
that's cause no one understands her
She's somewhere in outer space,
knock knockin at my head again
this time you won't get in
She's in orbit now
and I'm underground
just waitin' by the phone
Everything she wants
is everything she see
there's a riddle in her eyes
sometimes I try to figure it out
she's got a mountain of toys
reachin' to the sky
doesn't keep her high
So the needle and the spoon
are gonna make you feel alright
Cause I don't know,
and I don't care,

I'll do anything you want,
Never good enough for you.
