I can't pretend that everythang's all good

Nope, I can't say that everythang's all bad

But I'm gon' say that you be on my mind

How you doing, who you with, where you be at

Girl, we've had our share of ups & downs

But you know that I'm gon' always be around

That's fo'sho & you know how we do, how I roll

& remember ain't a damn thang changed so...

(Chorus:)

Holla if you need me

You always gon' be my boo

Holla if you need me

You know I still got you

& if you ever need me to be what you need, girl I'm free

& forever you can holla at me (x2)

(Verse 2:)

Girl, I still be thinking 'bout the thangs you do

I still be thinking 'bout the times we had

Don't wanna seem like I be missing you

But I am, & damn its bad

Girl, we've had our share of ups & downs

But you know that I'm gon' always be around

That's fo'sho & you know how I do, how I roll

& remember ain't a damn thang changed so...

(Chorus:)

Holla if you need me

You always gon' be my boo
Holla if you need me
You know I still got you
& if you ever need me to be what you need, girl I'm free
& forever you can holla at me (x2)

(Bridge:)

Girl, you can holla at me
Whoa, whoa...
Girl, I really, really, really wanna let you know
That I really, really, really can't let you go
& even if we ever get it back, you'll see
You can still come & holla at me
I want you to know...
Girl, I really, really, really wanna let you know
That I really, really, really can't let you go
& even if we ever get it back, you'll see
You can still come & holla at me

(Chorus:)

Holla if you need me
You always gon' be my boo
Holla if you need me
You know I still got you
& if you ever need me to be what you need, girl I'm free
& forever you can holla at me (x2)

Girl, I really, really, really wanna let you know
That I really, really, really can't let you go
& even if we ever get it back, you'll see
You can still come & holla at me...

(Outro:)

Holla, holla, holla, holla at me yeah, yeah
Holla at me, me, me
Holla at me, me, me
Holla at me...
