

# Only Yesterday

## Circle II Circle

Who would've thought  
That things could change so fast  
Who would've thought you'd be  
Sitting here reflecting on the past  
We always like to think  
It's gonna last foreverEverybody's got some things  
They want to try  
Everybody's hopes they're gonna leave  
Some kind of mark on this life  
You gave it your all in the end my friend  
You promised you'd never go  
Walking through this crazy life alone  
Nobody ever knew just what was wrong  
Never leading on just hiding  
Like a ghost within your song  
Never letting life get in the way  
You never knew how much you had  
Now all that's left  
Are pictures of the pastYou're gone for now  
But a part of you remains  
We hear the sound  
Every note you ever played  
You gave us something we could believe in  
It was only yesterday  
You never thought  
It all could change so fast  
You never thought you'd be  
Sitting here reflecting on the past  
We always like to think  
It's gonna last foreverYes it's over now  
But the questions are the same  
I don't know how  
But we justify the pain  
You gave us something we could believe in  
It was only yesterday
