

Will It Bleed

Sevendust

Confusion, perception
Rage inside of me
Oh, will it ever, oh, can it ever
Oh, will it ever take me? I'd rather kill myself
Than put you through the pain again
I'd rather kill myself
Than put you through the pain I'd rather kill myself
Than put you through the pain again
I'd rather kill myself
Than put you through the pain Connection, find direction
Hate inside of me
Oh, will it ever, oh, can it ever
Oh, will it ever take me? I'd rather kill myself
Than put you through the pain again
I'd rather kill myself
Than put you through the pain I'd rather kill myself
Than put you through the pain again
I'd rather kill myself
Than put you through the pain I'd rather kill myself
I'd rather kill myself I'd rather kill myself
Than put you through the pain again
I'd rather kill myself
Than put you through the pain I'd rather kill myself
Than put you through the pain again
I'd rather kill myself
Than put you through the pain
