

# Kill The Lights (with Nile Rodgers)

[Alex Newell](#)

You set me free every time your hands on me  
I wanna be your way to shine  
I can't deny the feeling that you're giving me  
You lit the spark that set a fire Oh no, don't run away from your love  
No, no, don't turn away from the heart of the groove  
From the way that we move  
Kill the lights, we can't lose Kill the lights and look right at me  
Close your eyes, you can see me by the way that I feel  
Kill the lights and touch my body  
Close your eyes, you can see me by the way that I feel  
Come spin me around, let's get lost in the sound  
Close your eyes, you can see me by the way that I feel  
Touch my body, kill the lights tonight Let's live our life, tomorrow doesn't always come  
Don't try to hide, let's have some fun  
You can't rely on anything or anyone  
Who fights the love you have inside Oh no, don't run away from your love  
No, no, don't turn away from the heart of the groove  
From the way that we move  
Kill the lights, we can't lose Kill the lights and look right at me  
Close your eyes, you can see me by the way that I feel  
Kill the lights and touch my body  
Close your eyes, you can see me by the way that I feel  
Come spin me around, let's get lost in the sound  
Close your eyes, you can see me by the way that I feel  
Touch my body, kill the lights tonight Kill the lights  
Kill the lights  
Close your eyes  
Close your eyes  
Kill the lights  
Kill the lights  
Close your eyes  
Close 'em, close 'em, close 'em Close your eyes, you can see me by the way that I feel  
Kill the lights and touch my body  
Close your eyes, you can see me by the way that I feel  
Come spin me around, let's get lost in the sound  
Close your eyes, you can see me by the way that I feel  
Touch my body, kill the lights tonight
