

# Stupid Sayings

## Jason Derulo

they say think that you can do it  
no crying till it's gone  
they say what if you don't need it  
you had it all along  
they say not enough talking today  
drinking only hours away

they say, next time never the same as the first time  
baby, we just torn up and this doesn't mean that you're not priceless  
no one listens, they keep asking, how did it get this way  
they say nothing lasts forever, so i'm living for today  
see i listen to what they say and i push your love away  
stupid sayings, oho, stupid sayings, oho  
stupid sayings, oho, stupid sayings, oho.
