

Light Comes Out of Black

[Rob Halford](#)

Innocence is calling
Raptures in the past
Craving for salvation of the mind
Serenity is calling
Seeking only truth
Vision block forever left behind
Light comes out of black
Stand and face the fear
Give him eye to eye
Walk the walk right here
Images unraveling
Saw through the disguise
Crystal clear and shining through and through
Liberation traveling
Bringing down the wall
Universe waking coming through
Light comes out of black
Stand and face the fear
Give him eye to eye
Walk the walk right here
Let the fight begin
Watch the power soar
Work the magic now
Free forever more
Now feel the light
Lifting up and rising all alive
Now hold the light
Keep the faith inside and I'll survive
Innocence is calling
Raptures in the past
Craving for salvation of the mind
Serenity is calling
Seeking only truth
Vision block forever left behind
Light comes out of black
Stand and face the fear
Give him eye to eye
Walk the walk right here
Let the fight begin
Watch the power soar
Work the magic now
Free forever more
Light comes out of black
Light comes out of black
