

# My God-Given Right

## Halloween

Why should I wait, what is left there for me?  
I come to claim  
To win the game  
Why should I plea for my fair and right move?  
I come to play  
I come to stay I don't wanna bitch around no more  
I don't wanna stand back anymore It's my God-given right  
To stand and fight  
For what I like  
It's my God-given brain  
That cried in pain  
Would I resign  
There's nothing to gain  
If I would restrain  
There's nothing to fight  
If I stay behind  
It's my right  
My God-given right Why should I lose if I am meant to win?  
I know I can  
I've got a plan  
All that they told me is right and so wrong  
I went through schools  
Found my own rules I don't wanna bitch around no more  
I don't wanna stand back anymore It's my God-given right  
To stand and fight  
For what I like  
It's my God-given brain  
That cried in pain  
Would I resign  
There's nothing to gain  
If I would restrain  
There's nothing to fight  
If I stay behind  
It's my right My God-given right  
It's My God-given right  
My God-given right  
It's My God-given right It's my God-given right  
To stand and fight  
For what I like

It's my God-given brain  
That cried in pain  
Would I resign  
There's nothing to gain  
If I would restrain  
There's nothing to fight  
If I stay behind  
It's my right  
My God-given right
