## Liz Phair

Don't look sexy but it just feels right  
Not too dirty and it's not too tight  
Why I never threw it out  
I'll never know exactly why Keep it in the drawer beside my bed  
It's faded pink now, but it used to be red  
Starting to fray at the seams  
But I know that you'll still love me Like you did, like you did  
Like before, like before  
Like we will, like we will  
Be doin' it once more Oh baby know what you're like  
You're like my favorite underwear  
It just feels right, you know it  
Oh baby know how you feel  
You feel like my favorite underwear  
And I'm slipping you on again tonight Leave you lyin' on the bedroom floor  
I leave you hangin' on the bathroom door  
Take you for granted  
But I'll always know exactly where you are Lost you once you were hard to find  
Got you back you didn't look like mine  
Thought we were falling apart  
But you make me feel so pretty Like you did, like you did  
Like before, like before  
Like we will, like we will  
Be doin' it once more Oh baby, know what you're like  
You're like my favorite underwear  
It just feels right, you know it  
Oh baby, know how you feel  
You feel like my favorite underwear  
And I'm slipping you on again tonight Slipping you on again tonight  
Wrap me and roll me, hold me tight  
Tear me apart and make me new  
Like you always do Oh baby know what you're like  
You're like my favorite underwear  
It just feels right, you know it  
You feel you're like this is what I want  
You feel, you feel Oh baby know what you're like  
You're like my favorite underwear  
It just feels right, you know it  
You feel you're like this is what I want

You feel, you feel And I'm slipping you on again tonight
