

# Lead Me

## Raze

Here I am in the same place of shame  
It's been some days since I called Your name  
I feel alone again, take me from this place I'm in  
Help me Lord, cuz my search is failing After the rain falls  
The sun will shine again  
And after my voice calls  
You take me by the hand Searching every day, help me find Your way  
Here I am, won't You lead me, purify my heart  
Show me where to start, take my hand, won't You  
Lead me, lead me? Here I stand, not alone  
I hear Your voice now, it's clearer  
You are leading me to the place I wanna be  
A perfect plan for eternity Searching every day, help me find Your way  
Here I am, won't You lead me, purify my heart  
Show me where to start, take my hand, won't You  
Lead me, lead me? No doubt in my mind, Jesus is real  
If you feel what I feel, c'mon  
Put them hands up, put 'em up, get 'em up  
Yeah, you know He's real, let me hear you sing Searching every day, help me find Your way  
Here I am, won't You lead me, purify my heart  
Show me where to start, take my hand, won't You  
Lead me, lead me? Every day it's the same ol' thang  
I'm on my knees crying Daddy please  
I need You to lead me, I'm no hope on my own  
When I'm all alone, it's a tragedy Daddy, please would you lead me?  
I need you to lead me
