

# Sing Me To Sleep

## Waking Ashland

There is something watching, waiting  
There is something passing, casting these shadows  
How they make their way into my mind And you'll sing me to sleep, you'll sing to me gently  
And you'll sing me to sleep, you'll sing to me  
And I'm not alone There is something shining, calling my name  
And who are you? What do you want?  
I'll claim nothing when you're whispering  
The truth has made its way into my head And you'll sing me to sleep, sing to me gently  
And you'll sing me to sleep, sing to me gently  
And you'll sing me to sleep, sing to me gently  
And you'll sing me to sleep, sing to me gently  
And I'm not alone
