

Steady On

Point Of Grace

Kicking up the dust, heaven or bust
We're headed for the promised land
Since the moment we believed, we've been eager to leave
Like a child tugging daddy's hand
May we never forget that patience is a virtue
Calm our anxious feet so faithful hands can serve you lord[Chorus:]We run up ahead, we lag behind you
It's hard to wait when heaven's on our mind
Teach our restless feet to walk beside you
'Cause in our hearts we're already gone
Will you walk with us
Steady onWe want to walk awhile
We know that every mile is bringing us closer home
We want to tell the story
Of sinner bound for glory and turn to find we're not alone
When we walk in your light the lost will see you better
As the narrow road gets crowded lord won't you lead us...[Chorus:]Steady me when the road of faith gets rocky
Oh ready me, for fears I cannot see
Lord won't you let me be a witness to your promise
Won't you steady me[Chorus:]We run on up ahead, we lag behind you
It's hard to wait when heaven's on our minds
Teach our restless feet to walk beside you
'Cause in our hearts we're already gone[Chorus:]Will you walk with us
Steady on...
