

# Touch a New Day

## Lena

Take a break now, turn it around  
Put my mind in a jamboree  
Never felt that feeling that I can feel  
When you're near to me

God knows I've never given more  
Than I do do do today, 'cause I  
Give it back what you're giving to me  
And there's a lot more coming in your way

Cause I can touch a new day  
Just by playing in a new play  
I have got some brand new thoughts  
And you will be a part in all these

I like the smell of fresh hay  
I wont stop right now to inhale  
I have got some brand new flavours  
Going in and out of my mind

Straight in from a lousy time  
I took off on a cloudy day  
Not knowing that a little climb  
Could turn it in another way

It appears as a matter of fact  
A little break off to the side  
Can change more things that you've ever thought of  
Ain't no reason to hide

Cause I can touch a new day  
Just by playing in a new play  
I have got some brand new thoughts  
And you will be a part in all these

I like the smell of fresh hay  
I wont stop right now to inhale  
I have got some brand new flavours  
Going in and out of my mind

Come on over, listen to me  
Enjoy your ride on my way to now  
It might be you more clever than me  
But we can complement  
Each other somehow

Get back to the depth of your soul  
And unwind on a hanging seat  
You get more when you leave behind  
Some of the things you don't really need

Cause I can touch a new day  
Just by playing in a new play  
I have got some brand new thoughts  
And you will be a part in all these

I like the smell of fresh hay  
I wont stop right now to inhale  
I have got some brand new flavours  
Going in and out of my mind
