Kill the Rhythm

Gallows

Kill the rhythm
Smash the beat
We're gonna party till we're dead on our feetWe don't fuck about
Say what we think
Wont stop till everyone screams
Oh Yeah!For one night only
There's a reason to be moving on the floor
For one night only
Leave your inhibitions at the door
For one night only
We ain't gonna fight no more
For one night only
We bring the party like no one has done beforeWe aren't here
To fucking fight
We just wanna party till the end of the night
We start the fires
And lose control
Burning down the stage at every fucking showFor one night only
There's a reason to be moving on the floor
For one night only
Leave your inhibitions at the door
For one night only
We ain't gonna fight no more
For one night only
We bring the party like no one has done beforeGet down
((To the rhythm))
((To the beat))Get Down ((repeat))
There's a reason to be moving on the floor
For one night only
Leave your inhibitions at the door
For one night only
We ain't gonna fight no more
For one night onlyGet down
((To the rhythm))
((To the beat))
