

# No Reason

Ben Kweller

Let me get lost  
I'll drive you around till I run out of gas  
Find me a boss  
There's ripples in my tea 'cause  
In earthquakes coming And there's people meeting on Mars  
And people driving in their cars  
And kids are laughing under the stars  
Today Let me go hide  
Find a box to put bk inside  
Things are so well  
Blowing shit up  
Only you could tell 'Cause there's people meeting on Mars  
And people driving in their cars  
And kids are sleeping under the stars  
Today No reason, reason  
There's no reason, reason  
There's no reason, reason  
There's no reason to cry I'm going against  
Every person that I once walked with  
Things are happening  
My cat is sleeping  
And my cherry tree's dying And there's people meeting on Mars  
And people crashing in their cars  
And kids are kissing under the stars  
Today No reason, reason  
There's no reason, reason  
There's no reason, reason  
There's no reason to say goodbye No, reason, reason  
There's no reason, reason  
There's no reason, reason  
There's no reason to No reason, reason  
There's no reason, reason  
There's no reason, reason  
There's no reason to No reason, reason  
There's no reason, reason  
There's no reason, reason  
There's no reason to  
No reason to  
No reason to say goodbye
