Believe

Gus Gus

I'm no Jesus but I'm close to Him
We talk all the while
I'm no Jesus but He comforts me
We walk side by sideOn the water, we walk religiously
On the water, we talk seriouslyThe pool is dirty but I'm feeling clean
Love is the drug
I need a rush and then He comes to me
He gives me a hugFill my pockets with stones but I can't sink
Help me if you believe, believeAin't no Jesus around here anymore
Deserted the game
How come He didn't know that love was a whore
Hope to see him againOn the water, we walk religiously
On the water, we talk seriouslyFill my pockets with stones but I can't sink
Help me if you believe, believeFill my pockets with stones but I can't sink
Help me if youBelieveBelieve
BelieveHelp me if you believe
