

# I'm Doing Fine

## Day One

Everyone has  
Their own centre to this universe  
    But it stops right there  
And kids who try and see it all  
    Writing graffiti on the wall  
        But it stops right there  
        And we're all in the know  
        From one television show  
        But it stops right there  
        And take care of yourself  
        'cause it's all about ourselves  
And it stops right thereI'm lost looking in a sea of faces everywhere  
    Now where did she go?  
    I need to find her quickly  
    To immerse my insecurity  
    I'm lonely amongst these people  
        And I need to feel love  
    And I need to feel part of something  
        Is that strange?  
    And why are they reluctant to talk  
    And why do they look alone when they walk?  
I see a face but no namesBut despite my confusion  
    I've come to the conclusion  
        That people  
        Need people  
        It's something I forget  
        But I've come to accept  
        That people  
    Need peopleAnd I'm alright  
        And I'm ok  
        I'm surviving well  
        Without you  
        And what did you want  
        And what did you expect  
Did you want me to still talk about you?No, no way  
    I'm on my own now  
    And doing fine ( and doing fine )  
        No, no way  
    I'm on my own now

And doing fine ( and doing fine )And anyone can give  
Money to a good cause  
But it stops right there  
And anyone can sign  
A petition to change the law  
But it stops right there  
And we can believe in socialism  
Or any theorism  
But it stops right there  
And take care of yourself  
'cause it's all about yourself  
And it stops right there  
But I'm not part of this  
I'm not seeing what they're seeing  
I'm staring at the ceiling to the world  
To see what is lying  
On the horizon  
Maybe I'll see you again someday girlBut despite my raw deal  
I still feel  
That people  
Need people  
It's something we forget  
But we must accept  
That people  
Need peopleAnd I'm alright  
And I'm ok  
I'm surviving well without you  
And what did you want  
And what did you expect  
Did you want me to still talk about you?  
No, no way  
I'm on my own now  
And doing fine  
No, no way  
I'm on my own now  
And doing fine  
I'm doing fine
