

Bless Your Heart

Vonrenzo

Bless your heart
As you move side to side
Bless your heart
Hold me down, can't say a thing
Bless your heart
For being incomplete
I don't want to talk about...
Things that fall apart
It's the way you stare when I said goodbye
My hand through your hair...
A whisper... My word
Bless your heart
For almost losing this need
Bless your heart
I know it's late, but your still here
Bless your heart
When you nurture so naturally
I don't want to talk about...
Things that fall apart
It's the way you stare when I said goodbye
My hand through your hair...
A whisper... My word
