

# Heart Of Stone

Sandi Thom

Beneath the white fire of the moon  
Love's wings are broken all too soon  
We never learn hurt together, hurt alone  
Don't you sometimes wish your heart was a heart of stone?  
We turn the wheel and break the chain  
Put steel to steel and laugh at pain  
We're dreamers in castles made of sand  
The road to Eden's overgrown  
Don't you sometimes wish your heart was made of stone?  
Look at the headlines, big crowd at the crazy house  
Long queue for the joker's shoes  
Ten rounds in the ring with love  
Do you lose and win or you win and lose?  
Sweet rain like mercy in the night  
(Lay me down, wash away the sorrow)  
Caress my soul and set it right  
(Lay me down, show me your tomorrow)  
Summer tears, winter and the moment's flown  
Don't you sometimes wish your heart was made of stone?  
Mercy, mercy, wish your heart was a heart of stone  
Get the picture? No room for the innocent  
Peak season in lonely town  
Knocked out of the ring by love  
Are you down and up or up and down?  
I ask the river for a sign  
(In a dream, we go on together)  
How long is love supposed to shine?  
(In a dream, diamonds are forever)  
But you and I we're hurt together, hurt alone  
Don't you sometimes wish your heart was a heart of stone?  
Mercy, mercy, wish your heart was a heart of stone  
(With a heart of stone you'll be well protected)  
Don't you sometimes wish your heart was made of stone?  
(With a heart of stone love's not resurrected)  
Mercy, mercy, wish your heart was a heart of stone  
(With a heart of stone you'll be well protected)  
Don't you sometimes wish your heart was made of stone?  
(With a heart of stone love's not resurrected)  
Mercy, mercy, wish your heart was a heart of stone

(With a heart of stone you'll be well protected)
