

# Silver Dreams, Golden Smiles

## Santana

You came to me  
In a silver dream  
With a glowing flow  
Of a mountain stream  
You lift my soul  
Way beyond the sky  
Just to wake me up  
With your golden smiles

Chorus:

Silver dreams and golden smiles  
Silver dreams and golden smiles  
Silver dreams and golden smiles  
Silver dreams and golden smiles

I knew one day  
You would come my way

You would help me see  
The reality  
Heaven and earth  
They are one, the same  
In my heart I know  
When you call my name

Chorus

Dreaming when I'm wide awake  
See, when my eyes are closed  
Flying, I don't need no wings  
Being everywhere at once  
Hold me, hold me in your arms  
Fill me with your glowing grace

Chorus
