Closer

Jars Of Clay

Well, you thought you let go but you?re still hanging on
Mother earth?s slowing down, she?s still spinning around
And we are getting dizzy
I?ll drop out of the race for more personal space
'Cause the rocket?s will in, gets so cold and I miss your skin
It?s just how I?m feeling
If you need more love, well you?ve got to get close to me
If you want my love, well you?ve got to get closer to me
No unreachable itch, if you hemorrhage I?ll stitch
You are tears, I?m a cheek, I?m a pail on your boat with slow leaks
Out to sea for weeks
Well, if you want my love, well you?ve got to get close to me
If you need my love, well you?ve got to get closer to me
Oh, if you want my love
I don?t understand why we can?t get close enough

I want your kite strings tangled in my trees all wrapped up
No, I don?t understand why we can?t get close enough
I?ll be the comets that are fallin? from the sky you light up, light up
You?re my shirt, I an arm
I?m the tick, you?re the bomb
You?re the L and the V, I?m the O and the E
Am I speaking clearly?
If you want my love, well you?ve got to get close to me
Ooh, if you want my love
I don?t understand why we can?t get close enough
I want your kite strings tangled in my trees all wrapped up
No, I don?t understand why we can?t get close enough
I?ll be the comets that are fallin' from the sky you light up
Because I don?t understand why we can?t get close enough
I?ll miss the shivers in my spine every time that we touch
