

Between II Worlds

Nero

Have you ever wondered what happens when you become light?

It happened to me

I travelled between two worlds

Between here and there

Between there...

Have you ever wondered what happens when you become light?

It happened to me

I travelled between two worlds

Between here and there

Between there...

It was a dream

Except, it wasn't like a normal dream

I was awake

Would you like to see what I saw, feel what I felt?

I'll take you there

Try not to think

Just breathe

Try not to think

Now close your eyes

Now close your eyes

Would you like to see what I saw, feel what I felt?

I'll take you there

I travelled between two worlds

Between here and there

Between there...
