# How We Roll

## Loick Essien

(Welcome...And that's just how we roll)
Aaaohh
Fitted tee black jewelry
I know i stand out
I don't need to try fully
I check the lime light if you don't think you'll get quicker
It's like catch me if you can like some gingerbread... ohh
I never ride solo
It's me and my chick looking like slow mo
And we only roll through guns blazin
So you don't wanna roll with either me or my lady
Time after time
They try and prove me wrong
And nobody knows the way she saves me
(Tanya Lacey)
We have a real top shotta
Hotter than hot tub
Boy im in i look for no other
You know
(Loick Essien)
You and me on our own
You should already know
It's just me my baby ohh ohhh
Me my baby ohh
Back to back and reload
Pack our bags hit the road
It's just me my baby ohh ohhh
Me my baby ohh
And that's just how we roll (x9)
They say love can be deadly
I know this already
I know what i like
Stop trying to scare me
If only you knew
The things we've been through

Then maybe you would leave us both alone
So time after time
They try and prove me wrong

But nobody knows the way she saves me
(Tanya Lacey)
We have a real top shotta
Hotter than hot tub
Boy im in i look for no other
You know
(Loick Essien)
You and me on our own
You should already know
It's just me my baby ohh ohhh
Me my baby ohh
Back to back and reload
Pack our bags hit the road
It's just me my baby ohh ohhh
Me my baby ohh
And that's just how we roll (x9)
And i swear
Wherever we go from here
We'll be one til the sky falls down
Yeeehhh
You and me on our own
You should already know
It's just me my baby ohh ohhh
Me my baby ohh
Back to back and reload
Pack our bags hit the road
It's just me my baby ohh ohhh
Me my baby ohh
And that's just how we roll (x9)
(me and baby) ( i dont want you to ever leave)
Me and my baby oooohhhhh
