I Like You

Exit 159

don't you want me
don't you need me
don't you wanna be my friend
and I won't hate you if you kiss me
and I won't sing a love song to you
you would never want that
and I won't say how much I like you
you would surely hate that
wrestling in your bedroom
you were so sincere
and I don't want to but I just had to
you were so, so scared
and do you ever think about that
and hope it just goes away
you would never do without that
and no it never goes away
