Help (feat. Lecrae)

Erica Campbell

E.C. Lecrae (laughs)I confess S.O.S
I need ya daily.
Can't lie say the pain don't phase me.
My God who gone help these babies?
Dysfunctional, but I'm functioning.
I'm just wondering
If yo signs and wonders
Might wonder in
And get me out the hole that I stumbled in.
Well, I'm out here tryin'
And Lord knows I cried help (help)
You know I'm tired)Hep)
Need a helping hand to get me out the fire.(Lord I need your help)My, my, myI been in the fire so long
I can't get burned no mo'
I thought you was puttin' out the flame
But it was rain from the storm
That's over my head
Makin' me stressed
All day long
They won't let me rest
"S" on my chest
I ain't that strong[Hook:]
I need a life line right now
911 won't do
My backs against the wall now
Done all that I can do
I prayed every prayer
Went to every service
Like I know how
Just a ship without a sail
I'm lost without your[Chorus:] Help
(I need) Help
(oohhh)
Lord, I need your help
HELP (help)
Wheeew oooh (Help)
Lord I (Lord I need your help)Said I do but to tell the truth
Sometimes I don't
It ain't about my will

It's all about what you want
Your family used to be first
Things getting worst
In my home
My brother is hurt
We need a word
It's too far gone[Hook:]
I need a life line right now
911 won't do
My backs against the wall now
Done all that I can do
I prayed every prayer
Went to every service
Like I know how
Just a ship without a sail
I'm lost without your help[Chorus]
Lord it's me this time (Help)
Said I'm cryin' lord yeah
Lord I need your help
Help
I just can't make it if I don't have you (Help)
Whoa
said Lord I need your helpDear lord I need a little help now see
I feel left out
I can't tell my right from my left now
My mama's cryin' cause my daddy's dyin'
He got pains all in his chest now
And my daughters having these nightmares
I might be wrong but I'm right here yeah
I'm tryin' a hold on but my hands hurt
Or the ropes out cause when life fights it don't fight fair
so I'm leaning all on these ropes now
And I got hope but it's slow now
so I'm leaning all on these quotes now
Like never leave me
Won't forsake me
If you don't help me
I don't make it[Chorus][E:] said you never leave me (Help)
so come on Jesus
(Lord I need your help)

Does anyone need the lord
(Help)
I can't make it without you lord (Help)

Oh

Somebody laying in the hospital right now(Help)
need you to make it alright(Help)
