Come To Light

Arkells

For a second there
I felt peace and calm
The under pass
Will keep us from harm
And the wipers moved
Like some waving arms
We were flashing head lights
At coming cars

Up in the distance
Even in the dead of night
If we can make it to the morning
We can get things right
It's been a tough go lately
I hate choosing sides
What we do in the darkness
Will come to light

In times of fear
You shelter me
And you hold me close
So tenderly
And with my head phones on
As I fall asleep
You're my barricade
From intruding dreams

Up in the distance
Even in the dead of night
If we can make it to the morning
We can get things right
It's been a tough go lately
I hate choosing sides
What we do in the darkness
Will come to light
All right
Come to light
All right

Then silence fell

When I picked up
Those words hit me hard
Like a one two punch
So I went home
To face the storm
And the thought of you
Keeps me warm

But up in the distance
Even in the dead of night
If we can make it to the morning
We can get things right
It's been a tough go lately
I hate choosing sides
What we do in the darkness
What we do in the darkness
Comes to light

When every thing went wrong
You're keeping my head on
And in time
the things that hurt today
Will begin to fade away
