Eye Wonder

Shareefa

Hello
What you doin'? You sleep?
No, what's up?
I'm tryna see you tonight, ol' boy around you?
Yeah
Meet me on Charles Rd., Clinton Ave. in about a hour
Aight, we need to talkThis situation's getting heavy
Up in this double life, so phony
I'm tryna keep in on the down low
But the way you actin' that's impossibleI thought we had an understandin', no strings attached
You had a girl, that's what you told me
Now we both are catchin' feelin's, this don't seem real
This can't be right, we have to end thisSometimes I wonder, my life couldn't be
If I had no man then where would we be?
This creepin' and cheatin' is gettin' to me
Temptation is killin' me, we're gettin' too deepSometimes I wonder, my life couldn't be
If I had no man then where would we be?
This creepin' and cheatin' is gettin' to me
Temptation is killin' me, we're gettin' too deepNow from the jump it was a mistake
But neither of us wanna walk away
Oh God, please tell me that I'm dreamin'
The way he got me, like an addict boy I'm feenin'Damn, I hate I ever met you
I love my man but he is not you
See it's time fo' some closure, no midnight calls
No creepin' out, this fling is overSometimes I wonder, my life couldn't be
If I had no man then where would we be?
This creepin' and cheatin' is gettin' to me
Temptation is killin' me, we're gettin' too deepSometimes I wonder, my life couldn't be
If I had no man then where would we be?
This creepin' and cheatin' is gettin' to me
Temptation is killin' me, we're gettin' too deepNow it's time for me and you to call it quits
Hate to say, I'm so ashamed this has to end
Can't describe what I feel, this can't be real
My man can't do me like you doNow it's time for me and you to call it quits
Hate to say, I'm so ashamed this has to end
Can't describe what I feel, this can't be real
But sometimes I wonderSometimes I wonder, my life couldn't be
If I had no man then where would we be?
This creepin' and cheatin' is gettin' to me

Temptation is killin' me, we're gettin' too deepSometimes I wonder, my life couldn't be
If I had no man then where would we be?
This creepin' and cheatin' is gettin' to me
Temptation is killin' me, we're gettin' too deepSometimes I wonder, I had no man
This creepin' and cheatin'
Temptation is killin' me, we're gettin' too deepSometimes I wonder, my life couldn't be
If I had no man then where would we be?
This creepin' and cheatin' is gettin' to me
Temptation is killin' me, we're gettin' too deep
