

# Ghost Spores (feat. Laura Brehm)

## Varien

I fall in the dark as I'm filled with the energy  
Rising in me, I am watching  
From above  
My body as I dream  
(Above my body as I dream)  
I cannot recall all the clear space in my mind  
I have filled it with fire  
And the lies I had once believed  
(All the lies reveal themselves to me)I remember when I saw you from across the room  
The music elevating as I made my way to you  
Everything I have done led me to this  
Time would move in a circle to prove itEternal return  
Will the ghosts I leave behind help me  
To find you again  
Where have we gone?  
Will I wake into a better place?  
Take me to my homeEternal return  
Will the ghosts I leave behind help me  
To find you again  
Where have we gone?  
Will I wake into a better place?  
Take me to my home  
Eternal return
