Overcome

New Politics

I know your holding tomorrow
So I will trust you today
You may not keep us from sorrow
But I know that you will never ever change

[Chorus]
You've overcome the world
Rescued my soul
I don't have to worry
Cause whatever comes, your in control
Forever I will worship you I'm amazed by the things you've done
I am overcome

A king so awesome and worthy
And though you knew the great cost
Your heart was moved with such mercy
That in love you endured the cross

[Chorus]

By your mighty hands and the power you display
Though life gets hard, still in my heart
I'll have courage, I'll have faith

[Chorus]
