Reasons To Run (MÃ–WE Remix)

[Crankdat](#)

I don't really care what the people in the town say
Now is our time and we're gonna bring your worst day
We're gonna set this world on fire
I don't think that we can get this life much higher
So you better run
Cause I don't really care if people burn
So you better run
I don't really care what the people in the town say
Now is our time, and we're gonna bring your worst day
We're gonna set this world on fire
I don't think that we can get this life much higher
So you better run
I know you better run
Cause I don't really care if people burn
Burn.
Cause I don't really care if people--
We're gonna set this world on fire
I don't think that we can get this life much higher
So you better run
Cause I don't really care if people burn
We're gonna set the world on fire
I don't think that we can get this life much higher
So you better run
So you better run
