Everywhere With Helicopter

Guided by Voices

Eyeline the driveway
Eye black the door
Sky all around me
Levels life from roof to floorTrees and knees are lovely
Seek it, find the core
I have grown to life
Like all in silence
Wait for moreEverywhere with helicopter
Hard to follow/swallow
When I'm slow
Everywhere with helicopter
Sending off where lightning goes
(censor of the lightning ghosts)I will try to fight them
I will let them nowhere to go
Try escape the pace
I'll say "God bless you"
Let me knowWe know the answers
We fill us in
I do not diminish
Start to finish
Front to endEverywhere with helicopter...
