

Long Vows

Band of Horses

Hey little darlin'
Sweet little love of mine
Well it's only, a matter of time All that you see
All that you set out to find
Nothing change your mind At the brink of day
In the middle of the night
You remember me
Don't know why I'm in the running
In the running
Oh
Got me where you want me
Where you want me
Oh It's harder to recall
How... bad time
Or the frame of my mind
Frame of my Who could even blame me
In hindsight
You snuck around with that guy
It wasn't right It isn't funny
It isn't funny
Oh
No it's nothing, nothing
Wits don't show me the way
Blankets... stayed in place
Just as they were raised I'm in the running
In the running
Oh
You got me where you want me
Where you want me No one's going to show you the way
When it it gets cold
You find yourself babe
Back in the whole from which you came And everything will fall into place
