## **Bruised**

## **Jack's Mannequin**

I've got my things I'm good to go

You met me at the terminal

Just one more plane ride and it's doneWe stood like statues at the gate

Vacation's come and gone too late

There's so much sun where I'm from

I had to give it away, had to give you awayAnd we spent four days on an island

At your family's old hotel

Sometimes perfection can be

It can be perfect hell, perfectHours pass and she still counts the minutes

That I am not there, I swear I didn't mean

For it to feel like this

Like every inch of me is bruised, bruisedAnd don't fly fast, oh, pilot can you help me?

Can you make this last? This plane is all I got

So keep it steady, now

'Cause every inch you see is bruisedI lace my Chucks, I walk the aisle

I take my pills, the babies cry

All I hear is what's playing through

The in-flight radioNow, every word of every song

I ever heard that made me wanna stay

Is what's playing through the in-flight radio and I

And I am, finally waking upHours pass and she still counts the minutes

That I am not there, I swear I didn't mean

For it to feel like this

Like every inch of me is bruised, bruisedDon't fly fast, oh, pilot can you help me?

Can you make this last? This plane is all I got

So keep it steady, now

'Cause every inch you see is bruisedSo read your books but stay out late

Some nights, some nights

And don't think that

You can't stop by the barYou haven't shown your face

Here since the bad news

Well, I'm here till close, with fingers crossed

Each night 'cause your place isn't farAnd hours pass

And hours pass, yeah, yeah Yeah, yeah, she still counts the minutes

That I am not there, I swear I didn't mean

For it to feel like this

Like every inch of me is bruised, bruisedAnd don't fly fast, oh, pilot can you help me?

Can you make this last? This plane is all I got

## So keep it steady, now 'Cause every inch you see is bruised, bruised, bruised
