

Eachhoureachsecondeachminuteeachday: Of My Life

Maxwell

How can I do wrong babe?
When right is where your heart is near me
With each and every song baby
You are my only source of melody
Baby girl, come on baby girl, come on
Come on, keep it there till dawn baby
Till comes the coming second
Coming all over me ooh, ooh
Do me till I'm done, do me till I'm done
Do me till I'm done, till comes up the sun
Moon goes where it's from, till morning comes
Sideways, upside down, ceiling or the ground
Till my lost is found
Eachhoureachsecondeachminuteeachday of my life baby
Each night of my life baby
With every other breath baby, I drown
You always make the rain baby like sunshine
It's like I never ever doubted me
It's like I'm almost close to diggin' me
You made what I was missing baby all mine
Keep doing it on and on
Do me till I'm done, do me till I'm done
Do me till I'm done, till comes up the sun
Moon goes where it's from, till morning comes
Sideways, upside down, ceiling or the ground
Till my lost is found
Eachhoureachsecondeachminuteeachday of my life baby
Each night of my life baby
Do me till I'm done, till my lost is found
Eachhoureachsecondeachminuteeachday of my life baby
Each night of my life baby
Do me till I'm done, till my lost is found
Eachhoureachsecondeachminuteeachday of my life baby
Each night of my life baby
Do me till I'm done, do me till I'm done
Do me till I'm done, till comes up the sun
Moon goes where it's from, till morning comes
Sideways, upside down, ceiling or the ground
Till my lost is found

Eachhoureachsecondeachminuteeachday of my life baby
Each night of my life baby
